Web 2.0: finalmente a Web como nós

Sinopse da apresentação

- A World Wide Web está entre nós (de forma popular) desde 1994 e tornou-se quase uma presença constante nas nossas vidas. Quem não recorre à Internet por via da Web e consegue resolver alguns dos seus problemas com recurso ao famoso www.qualquercoisa.algures?
- Nos últimos anos, porém, a idade da Web nota-se cada vez mais. Mesmo as melhores tecnologias exigem renovação.
- A Web 2.0 é a renovação das propostas iniciais da World Wide Web e promete influenciar de forma tão profunda como a Web 1.0 as nossas vidas.
- Esta apresentação tem por objectivo mostrar alguns dos desenvolvimentos associados à Web 2.0.

Como resultado da actividade promovida na área das Bibliotecas, em geral e das Bibliotecas Escolares em particular, a Margarida Bairrão, contando também com a minha colaboração escreveu e editou um livro que agora está disponível.

A capa foi concebida nas oficinas gráficas da Universidade Fernando Pessoa que desta forma, apoiou a obra.
